He subscribed when I was studying for my national exam 5 (as an adult student) and found him invaluable. I am delighted to have discovered the enormous amount of resources for more young students too. My son who is in S2 will benefit from these, now and in the future, as my daughter will do when she moves to S1 from summer. So I would like to say very much! Greetings, Clare. Clare Hey, I would like to thank you for this appeal to increase! The past year was waiting to scrape a B in my N5 exam if I was lucky If I don't have an A1 !!! So once more, thank you very much! Olivia thanks for this fantastic website that you have here. So well arranged, to continue and as a father trying to help his son with the study, he has The best â £ 9.99 that has passed. I will continue with this for the superior mathematics and also so that my youngest son ensures that they remain at the day. day. worked solutions are so clear and easy to follow and I cannot thank you enough. I wish there was something similar to scientific issues. Claire I have an A in my national math exam 5! I'm very happy how I made my first attempt. The content of your website definitely helped clarify and consolidate my understanding of the topic. Nigel I just looked at the solutions worked for the N5 Math Past Paper not to calculate much more difficult than five previous documents. Anyway, I hope you have achieved an "A" Pass and we will definitely be using your excellent site for Higher Mathematics the next term. Graham E-mailing you guys know that you are doing a great job compiling all these excellent resources, it has been a great help to me and probably many others. It has allowed me to get a prelim reassuring brand and has given me confidence for the final exam (morning). Thanks for all the help and keeping the good work. I regularly refer to the Theory Guides to help me understand the issues I'm fighting with. The solutions worked in the online study package are also fantastic as it teaches me the right way to put my work and, at the same time, check my answers." Hollie, Mature Maths Student "Although I'm only in the third year we're working on national level 5 mathematics and we have a unit evaluation in the coming weeks. I really want to study Computer Games Development at the University that requires you to pass Maths so I'm studying hard now. The website is helping me so much. Oliver, high school math student "The website is helping me so much." go to college and study engineering. I am very happy to have found this website to help me on my way." Salim, high school math student

Solving equations such as sin  $x^\circ = 1$ , sin  $x^\circ = -1$  and cos  $x^\circ = 0$  can be achieved just be reading the solutions from the trig graphs. For example, in the graph of  $y = \sin x^\circ$  below, it can be seen that if we draw a horizontal line from 1 on the y-axis then it will meet the sin wave at 90°.
