Will still prolly pay the 3.99 for full game at some point. The economy got a huge punishing overhaul. Have to run a tight ship w/ this game. 11 routes 450+ employees ?. 20 TU's @ 127% fare, at alpha this time is barely worth it. Service upgrades took a sad downgrade.. All n all only good game of its type. Boeing 707-320s @ 130% fare, still makes the most with least overhead. 2 yr. Preview test. Back to AT4 till I buy a gift card to get this. Andy F: AT4 was a great game so why not build on it? Not only is the game ridiculously harder to play but the choices from the previous game have been seriously reduced! The choices of food, drinks etc for example have pretty much been removed which makes the game less immersive, also you can't see the % of happiness they have on your route! Verdict: If you liked playing AT4 then just stick with it, this game is actually worse and has less content than its predecessor. 1 star review. Barnabás Mihályfi: I really liked this game brand for a long time now, even had all games in full version. As a suggestion, if you are someone looking to buy full v. in one of these games, buy AT4. I am sad and mad at the same time, as this game did not meet my expectations. One more thing that i am really upset about, and i have been over the years in all AT games, is that in full version I should be able to "Add" money for free, and not have to buy it again. It is the least you can do for a buyer. Joaquin Ruibal: Awersome. Needs some development. Hopefully for AT6. As using aircraft for multiple routes. As a lowcost would do. Meanwhile. Very realistic. Oce you like it thats it. Only game needed if you are a busy person and just need relax between activities. Thanks devs. Looking foward to future games.D Pur: I enjoy the game very much. In the beginning I sided with the people who said I can't make a profit, but I went to the wiki to find tips on profit, and lo and behold, I'm in 1977 with 100,000k profit a turn. So it really engages me, and makes me figure out ways to improve my routes to maximize profit. Javier Camacho: Impossible to make money. Computer always wins. No matter what level, skill, strategy, routes, plane, comforts, city pairs, you do the computer will always make more money than you. I could have a new plane with all the amenities go against the computers plane with nothing and they will win. No matter if you advertise, have better seats, lower prices, have a better satisfaction rating, the computers advantage. Tiago Martins: Great game for avaition fans, could do with little changes such as more than 1 airport for a city. Also would be better if you could compete with other flag carriers where hubs can only be opened in that country or chose to run a budget airline. Dave Gross: Love this game. I have # 4 as well. Really enjoy the service preset option. It makes it faster when setting up multiple routes. One thing I would love to see in this game is route sharing, forming of alliances between airlines. Johnny Hernandez: Can't turn any profit. My routes were money makers I'm sure ad budget was good and I even tried longer routes like the AI. Nothing worked. I will check back later to see if future updates fix this issue. Was Up?: Basically the game is good, but the graphic of airtycoon 4 is a lot better.
